Developmental Behavioral Pediatrics is for YOU!

We have over 40 ACGME-accredited fellowship training programs all around the country and 37 are presented here.
What do Developmental Behavioral Pediatricians Do?
Excerpt from the Society of Developmental Behavioral Pediatrics (https://sdbp.org)

• Have a range of career options within academics, research, education, and clinical practice - often in multidisciplinary settings and involving close collaboration with other professional disciplines.

• Evaluate, treat and manage infants, children, and adolescents with a wide range of developmental and behavioral concerns and conditions, as well as physical complaints that are best addressed via a biobehavioral approach.

• Research the causes and treatments of such conditions; strive to promote an understanding of the social, educational, and cultural influences on children.

• Through training and continuing medical education, help to shape the work of general pediatricians and other pediatric subspecialists to provide collaborative community leadership, and inform public policy to promote the optimal development and behavioral health of all children.

Located within the NeuroDevelopmental Science Center, an interprofessional department, that includes pediatric neurology, neurosurgery, physical medicine & rehabilitation (PM&R)/physiatry, psychology, and neurobehavioral health.

Clinical Training
- Experiences in multidisciplinary clinics: Down Syndrome, Neonatal Follow-Up, Autism Diagnostic, School Success, Myelodysplasia, Neurofibromatosis and Single Ventricle LIFT, among others.
- Triple P® Certification for all fellows.
- Fellows have their own patient population in twice weekly continuity clinics, one-on-one supervision; incorporating telehealth practices with a diverse patient population.
- Fellowship wellness resources/events throughout the year.

Education
- Biostatistics and Epidemiology Courses through Northeast Ohio Medical University through the CEOMPH program, for those without a MPH.
- Faculty and research mentors for each fellow along the way.
- Support for fellow scholarly activities is augmented with monthly didactics and assistance from our own Research Institute, with funding support.
- Electives and focused learning opportunities are included.
- Attend at least one national conference per year.

Scholarly Themes
- Health services in Down Syndrome.
- Innovations in Medical Education.
- Outcomes after prematurity.

Welcome to our backyard! Situated on The Towpath Trail Bridge, our local area offers beautiful walking spaces and lush green right outside, and next to the Rubber Ducks baseball stadium. We’re a short distance from the Cuyahoga Valley National Park. [www.CuyahogaValleyNatiPark](http://www.CuyahogaValleyNatiPark)
[www.downtownakron.com/explore](http://www.downtownakron.com/explore)
Faculty

Elisa Muñiz MD MS – PD, Interim Division Director
Blanche Benenson MD - APD
Lisa Shulman MD
Rosa Seijo MD
Ruth EK Stein MD
Maris Rosenberg MD
Michele Laverdiere MD
Merryl Schechtman MD
Rosario Valicente MD MS
Oscar Purugganan MD MPH
Jennifer Yoffe MD
Feng Liu MD PhD

Program Highlights

- MCHB/HRSA funded, LEND, UCEDD, IDDRC
- Interdisciplinary team including Psychology, Social Work, Speech Pathology, Physiatry, Physical Therapy, Occupational Therapy

Clinical training

- Infant Preschool Team, Child & Adolescent Unit, Physiatry, LEAP - the Low Birth Weight Infant Evaluation & Assessment Program/High risk infant follow up, Genetics, Neurology

Education

- Weekly Educational Meeting
- Biweekly Research Seminar
- Psychiatry & Psychopharmacology
- Advocacy, DEI
- Trauma-informed care
- Quality improvement

Scholarly themes

- Foster fellow scholarly interests
- Statistical support available
- Social Determinants of Health, Community Participatory Research, ACEs, Autism, ADHD, COVID-19, Sleep, Language, DBPNet

Website: https://www.cham.org/specialties-and-programs/developmental-behavioral-pediatrics/education-training
Baylor College of Medicine/Texas Children’s Hospital Developmental-Behavioral Pediatrics Fellowship

**CLINICAL TRAINING HIGHLIGHTS**

- **Core Longitudinal experiences**
  - Autism Center
  - School-aged Clinic
  - NICU follow up
  - Community Health Center
  - Psychopharmacology

- **Core Rotations:** Neurology, Genetics, PM&R, Down Syndrome, Fragile X, Community Advocacy, Healthcare Transition, Psychology

- **Elective opportunities:** Cardiac Developmental Outcomes, Sleep Medicine, Neurogenetics (e.g. Angelman, Rett), Movement Disorders, Traumatic Brain Injury, Muscular Dystrophy, Child Abuse, Foster Care, Spina Bifida, Cerebral Palsy

- **DBP Training Grant Recipient (MCHB/HRSA Funded Program):** Fellows attend annual MCHB meeting and build connections with other funded programs and AUCD

**EDUCATION HIGHLIGHTS**

- Weekly half day of education
  - Case staffing and board prep
  - Local or guest lecturers

- LEND (Leadership in Neurodevelopmental Disabilities) Program alongside UT Houston

- ICOR (International Collaborative Office Rounds)

- Fellow teaching roles in resident primary care clinic and community health clinic

- Opportunities for advanced degrees (MPH, MEd)

**RESEARCH HIGHLIGHTS**

- Faculty working in diverse areas including Fragile X, Down Syndrome, Clinical trials in rare genetic disorders, Cardiac Developmental Outcomes, Epidemiology of Developmental Disorders

- One of 14 IDDRC sites (Intellectual and Developmental Disabilities Research Centers)

- Kochel Lab for Autism Research

- Member of DBPNet

Boston Children’s Hospital
Developmental Behavioral Pediatrics Fellowship Program

Faculty: 18 DBP Attendings and 7 Psychologists
Jennifer Aites, MD
William Barbaresi, MD
Ronald Becker, MD
Nicole Baumer, MD
Julie Bickel, MD, MPH
Eugenia Chan, MD, MPH
Meredith Close, MD
Emily Davidson, MD, MPH
Erica Deshpande, PsyD
Katherine Driscoll, PhD
Jason Fogler, PhD
Elizabeth Harstad, MD, MPH
Emily Holding, PhD
Kida Ingram, PhD
Lianna Lipton, MD
Kate Linnea, PhD
Demetra Pappas, MD, MPH
Lisa Prock, MD, MPH
Leonard Rappaport, MD, MS
Marie Reilly, MD
Sabrina Sargado, MD
Aanchal Sharma, MD
Nancy Sullivan, PhD
Laura Weissman, MD
Carol Weitzman, MD
Carol Wilkinson, MD, PhD

Program Highlights
• MCHB/HRSA funded
• 3 year ACGME accredited program
• Clinical training
  • Trainees participate in 1-3 interdisciplinary teams per week with psychology, social work, and/or educators.
  • Specialty clinics: ASD Spoke, ADHD Spoke, Adoption Program, Down Syndrome Program, Sleep Clinic, Pain and Incontinence Program, and Advocating Success for Kids (ASK Program)
• Education
  • Comprehensive Weekly Didactics
  • Substance Abuse Seminar
  • Teaching Skills Seminar
  • Didactic QI curriculum
  • Summer teaching opportunities
  • Clinical Effectiveness Summer Program, Harvard School Public Health
  • Multiple teaching opportunities to observers, medical students, residents, and fellows in other disciplines
• Scholarly Projects
  • Each trainee develops his or her own scholarly project.
  • Informal and formal feedback is provided by research faculty, SOC members, and peers.
• EDIBA (Equity, Diversity, Inclusion, Belonging, Access) Mission
  • Committed to promoting equity, diversity, and inclusivity through the development of a thoughtful, deliberate, systematic approach that is comprehensive and meaningful and that can be incorporated into the fabric of our Division to produce long-lasting change.

Our Fellows
Boston Medical Center
Developmental Pediatrics Fellowship Program

Over 65 passionate, committed and kind professionals from a wide variety of programs!

Programs in DBP:
- Autism Program
- Comprehensive Care Program
- Good Grief Program
- Child Witness to Violence
- Baby Steps (NICU follow up)
- Child Protection
- Supporting Our Families through Addiction and Recovery (SOFAR)
- Grow Clinic
- The Massachusetts Center For Sudden and Unexpected Infant and Child Death

DBP Faculty

Marilyn Augustyn, MD
Audrey Christiansen, MD
Arathi Reddy, DO
Mei Elansary, MD MPhil
Deborah A Frank, MD
Naomi Steiner, MD
Sue Minear, MD
Alyssa King PhD
Jocelyn Kuhn PhD
Mary Ellen Killion, NP
Christina Lazdowsky NP
Rachel Amgott NP
Neena McConnico, PhD

Program Highlights
- Emphasis on health equity and diversity
- MCHB/HRSA funded
  - 3 DBP fellows: Sarah Canale, MD; Britany Weisman, MD and Christine McGivney, DO
  - 2 short term “minifellows”: Emaut Louis, MD and Meaghan Hamilton, CNP
- Clinical training
  - Emphasis on clinical excellence and administration of developmental testing
  - Rotations in Neurology, psychiatry, baby steps, SOFAR, feeding clinic, Grow clinic, Genetics
- Education
  - Weekly chief rounds and literature seminars
  - Advocacy; Quality improvement
  - Participation in -LEND certificate program
  - Formal and informal teaching of residents and medical students
  - Presentation at CME conference in 3rd year
- Research
  - Monthly research seminars
  - Scholar Oversite 1-2 times per year
  - Optional research month in 2nd or 3rd year
  - Fellow Lead QI project

View our recruitment video at the following link!  https://drive.google.com/file/d/1KisjSV9-WcLPy8e61SPZ1SdWHpRQD-Gf/view?usp=sharing

For more information contact: Audrey.Christiansen@bmc.org

BMC is the largest safety-net hospital in New England and has a long-standing commitment to providing accessible, community-oriented health services to all in need regardless of their status or ability to pay.
BROWN UNIVERSITY/ HASBRO CHILDREN’S HOSPITAL DBP FELLOWSHIP

Program Highlights:
- We were among the first DBP fellowship programs accredited by ACGME in 2003. Since that time, 28 fellows have completed our program and practice across the country and the globe, primarily in academic settings.
- We are among the 12 MCHB/HRSA sponsored DBP fellowship programs, continuously funded since 2007.
- Our 2nd year fellows join RILEND which recruits and prepares graduate-level, parent and self-advocate trainees from diverse ethnic and cultural backgrounds to become future clinical, academic and community leaders with a goal of increasing the health and wellbeing of children with autism and other related developmental disabilities.

Clinical Training
- Our primary clinical service is imbedded in the Children’s Neurodevelopment Center where we practice shoulder to shoulder with colleagues in Genetics, Child Neurology, Psychology, Nursing, Social Work, Care Coordination and our Parent Consultants.
- Fellows first learn clinical skill through close observation of faculty providing care. They gradually increase their assessment including astute child-focused behavioral observation, direct testing including ADOS administration and development of a plan that is strength-based and sensitive to the family’s perspective.

Education
- Our strong core curriculum includes weekly seminars (Literature Seminars, Research Symposia, PI case discussions and didactic sessions) with full participation by faculty and fellows.
- Our fellows typically attend and often present at 2 national meetings each year.
- Our 1st year fellows take Biostatistics courses in Brown’s School of Public Health and may apply for the Hassenfeld Scholarship to complete a Certificate in Clinical and Translational Research.
- Fellows rotate through NICU follow-up, Genetics, Child Neurology, a Med-Psych Partial Hospital Program, Children’s Rehabilitation Services with Speech, OT, PT and spasticity management, Downs Syndrome, Sleep and Fussy Baby clinics and have opportunities to select to rotate in Child Psychiatry day programs or psychopharmacology practice.

Recent Fellow’s Scholarly Themes/Research
- All fellows complete a scholarly project with faculty mentorship. Themes of recent projects include:
  - Adverse Childhood Experiences and Protective Factors Associated with Behavior Problems, Developmental Delay, and Learning Concerns in Preschool Age U.S. Children
  - The Association between Race and Ethnicity and Autism Diagnosis before Age 5 among Children 6-17 years old with ASD in the United States
  - Adverse Childhood Experiences (ACEs) and Unmet Special Service Use Among US Children with Developmental-Behavioral (DB) Needs
  - Association between food insecurity and the diagnosis of developmental delay and behavioral problems in American preschool age children
  - Associations of Adverse Childhood Experiences and Protective Factors with School Engagement

Jason Woodward, MD, MS

Key Psychology Mentors
Robin Adams, PhD
Rebekah Ridgeway, PsyD
Teresa Smith, PhD
Megan Stone-Heaberlin, PsyD

Interdisciplinary Support
APNs, Psychology, SLP, OT/PT, Nutrition, Educators, Social Work, Child Life, Family Support Professionals

Program Highlights
• U.S. News & World Report’s No. 2 Department of Pediatrics (2022)
• Rich exposure to wide range of DBP conditions from birth to age 21 years, rural and urban populations
• Experience in diagnostic evaluations and follow up, including medication management
• Practice with various care delivery models including single discipline evaluations, interdisciplinary team evaluations, and training in and administration of developmental assessments
• Weekly continuity clinic with teledicine opportunities and dedicated Nursing/Social Work support
• Engaged faculty committed to fellow success and wellbeing
• Strong research mentorship and opportunities for scholarly work in the fellow’s area of interest
• Opportunities to pursue advanced degrees in public health and medical education in collaboration with University of Cincinnati

Specialty Programs / Interdisciplinary Teams
• Aaron W. Perlman Center (CP, Physical Disabilities)
• Center for ADHD
• Center for Spina Bifida Care
• Comprehensive Health Evaluations for Cincinnati’s Kids (CHECK) Foster Care Center
• Developmental Assessment Team for Infants and Toddlers (DATIT)
• Hearing Deafness and Research Center
• Heart Institute Neurodevelopmental and Educational Clinic (NDEC)
• Kelly O’Leary Center (TKOC) for Autism Spectrum Disorder
• MD/Psychology Fellow Arenas
• MD/SLP Arenas for < 3 yo
• Reit Syndrome Program
• Rubinstein-Taybi Syndrome Program
• Thomas Center for Down Syndrome
• TrYAD Transition Clinic

Electives
Fellows also have the opportunity for meaningful experiences in DBP related subspecialties and programs, including Behavioral Medicine and Clinical Psychology, Child Abuse, Complex Care Center, Fragile X Syndrome Clinic, GI, Genetics, Neurology, Neurobehavioral Psychiatry, NICU Follow-up Clinic, International Adoption Center, PMR, Reading and Literacy Discovery Center, Transgender Health Clinic, and Sleep Medicine.

Education
• Weekly core didactics (ABP DBP Content)
• Weekly psychopathology/psychopharmacology seminar with Child and Adolescent Psychiatry trainees
• Monthly case conference with core preceptors
• Monthly psychopathology case conference
• Monthly DBP Board preparation
• Monthly research curriculum including QI didactics
• Monthly divisional DEI seminar
• Bimonthly DBPs as Educators seminar
• Quarterly book club
• Quarterly journal club
• Over 300 hours instruction/field experience in leadership, advocacy and interdisciplinary teaming through the University of Cincinnati Center for Excellence in Developmental Disabilities Leadership Education in Neurodevelopmental and related Disabilities (UCEDD LEND) program
• ADOS®-2 Training
• Mind Brain Behavior consortium grand rounds
• Fellow teaching roles in clinic and residency rotation
• Fellow presentation opportunities to other trainees, faculty, community, and at regional and national conferences

Faculty Research
ADHD, ASD, Down syndrome, Fragile X syndrome, Deafness/Hearing impairment, peer victimization, shared decision-making, transition to adulthood, Participation in national autism treatment network, DBPNet, and CDC-funded Spina Bifida registry.

Cincinnati Children’s is dedicated to ensuring every employee, patient, family and visitor feels welcome and safe by advancing diversity, equity, and inclusion and standing against racism. We are focused on cultivating, retaining and recruiting diverse talent, and ensuring all employees have an equitable path to achieve their full potential.

Abigail Angulo, MD, MPH
Fellowship Director

Meghan Breheny, MD
Associate Fellowship Director

Judy Reaven, PhD
Director of Research

Clinical Team

- 24 Psychologists
- 2 Genetic Counselors
- Integrated ST, OT, PT
- 1 Child Life Specialist
- 1 Care Coordinator
- 9 Physicians, 3 APPs
- 3 Social Workers
- 1 Health Navigator
- 8 MAs/RNs
- 1 Pharmacist

Program Highlights

Diagnostic and Treatment Clinics:
- Interdisciplinary clinics
- Single discipline evaluations
- Medication management
- Follow up clinics
- Transition Clinic
- Bilingual Spanish evaluations

Infant to Adulthood Clinical Consultations

Primary Care Integrated Clinics

Strong Fellow Support for Research projects:
- Clinical: Quantitative and Qualitative
- Community engagement
- Implementation science
- Basic science

Community-Based Clinical Curriculum

Section-wide DEI education program

Education:
- LEND curriculum
- Education didactics
- Research curriculum
- Teaching Scholars Program

Fellow Graduation Party

The Hospital

David Schonfeld
Josh Kallman
Karen Kay Imagawa
Larry Yin
Sai Kumar

Program Opportunities

1. Fellows as Care Providers
   - Autism Team, Private Practice, Primary Care Consultation,
   - NICU Follow up, Early Childhood, Psychopharm
   - Public and Private insurance
   - Collaboration with multiple hospital divisions and a federally qualified health center (Altamed)

2. Fellows as Scholars
   - Autism Care Network and DBPNet projects
   - Support for biostats and manuscript submissions

3. Fellows as Advocates
   - Leadership Education in Neurodevelopmental Disabilities training (years 1 and 2)
   - Diverse patient population, diverse workforce

4. Fellows as Educators
   - Pathway of learners (Medical Students, Residents, Fellows)
   - Over 15 disciplines beyond the many pediatric subspecialties

Come train to be a DBP in a dynamic environment as you say goodbye to winter...

Zvart Abaryan

Maternal & Child Health funded since 2013
The Children’s Hospital of Philadelphia
Developmental and Behavioral Pediatrics Fellowship Program

Program Leadership
Carissa Jackel, MD – PD
Kate Wallis, MD – APD
Bernadette Burton – PC

12 Attending Physicians
6 Psychologists/Researchers
6 Advanced Practice Nurses
6 DBP Fellows
1 Mini-fellow
1 APN fellow

Highlights
• MCHB/HRSA funded since 1991
• LEND program (Leadership in Neurodevelopmental Disabilities)
• IDDRC (Intellectual and Developmental Disabilities Research Center)

Education
Weekly DBP Fellows Seminars
Monthly Journal Club and Case Conference
Collaborative office rounds
Didactic and Clinical teaching of residents

Clinical
• DBP Continuity clinic
• Combined new patient evaluations with Speech Therapy
• Rotations: NDD/Rehab, Neurology, Genetics, Psychiatry, Community programs
• Inpatient consults
• Multi-disciplinary teams: Trisomy 21 Program, Autism Integrated Care Program, Center for Management of ADHD
• Electives: Cardiac Kids Developmental Program, Neonatal follow-up, Feeding Clinic, Neurogenetics, Sleep, Disorder-specific clinics (NF, CDLS, 22q, Rett, CP)

Research
Participatory Action Research Project through LEND
Divisional QI Project in 2nd year
PENN Translational Research Certificate Program
CHOP Center for Autism Research (CAR)

Children’s Mercy Kansas City DBP Fellowship Program Highlights

**Educational activities:**
- Core Curriculum Didactic Series, Fellowship Common Curriculum, Fellowship Enhancement Activities, Biostatistics Course/Research, Grant writing course, Psychology Didactics, Journal Club, Regional and National Meetings: DBP, PAS, AAP, CAPS.

**Clinical training:**
- Continuity Clinic Experiences (developmental and behavioral clinic)

**Rotations during the first year of fellowship:**
- Overview of Developmental and Behavioral Health
- Learning and Cognition in Psychology
- Genetics (dysmorphology and metabolic disorders)
- ADHD Clinic
- Psychiatry
- Pediatric Rehabilitative Medicine
- Neurology
- Occupational Therapy/Physical Therapy/Speech & Language/Audiology
- Feeding Clinic
- Community Services

**Rotations during the second year of fellowship:**
- Interdisciplinary clinics: Developmental Assessment of the Young Child, Developmental Diagnostic Team and Dyad, Behavioral Change in the Older Child and Teen, Inpatient Consultation, Elimination Disorders, Parent-Child Interaction Therapy (PCIT), Down Syndrome Clinic

**Elective experiences:**
- Child abuse and neglect, Advocacy, Eating disorders, Family therapy, Individualized therapeutics, Integrative pain management, International Medicine Elective (taken as one full-month), Neonatal follow-up, Ophthalmology, Psychopharmacology, Sleep disorders, Tourette’s clinic, Weight management among others

DBP Section Chief

Grace Winningham, MD (APD)

Hanein Edrees, MD

Libby Milkovich, MD

Bob Miller, DO

Sarah Nyp, MD

Lisa Campbell, MD  
Medical Director, ADHD Clinic

Our division includes over 40 Psychologists, 9 Psychiatrists and 4 Psychometricians in addition to our Developmental Pediatricians!!!

Contact information: Sydney Noller Fellowship Coordinator  
sbnoller@cmh.edu
Our Mission:
- To provide comprehensive and supportive training that prepares our fellows for careers in clinical practice as well as academic medicine

We train our fellows to:
- Provide high-quality and evidence-based clinical care
- Administer a variety of developmental assessments (e.g., ADOS-2, CARS-2, KBIT-2, GORT-5, WRAT-5, PPVT-5, etc.)
- Become powerful advocates at the individual, local, and national level
- Teach medical students, residents, and other healthcare providers
- Develop a strong foundation in research and QI methods
- Prepare for leadership roles within DBP

Program highlights:
- CCMC is the largest provider of pediatric care in the NY metro area and one of the best children’s hospitals in NY
- One of the largest faculties of DBPediatricians in the country
  - 10 DBPs, 1 Pediatric Neurologist, 3 Clinical Psychologists, 2 Nurse Practitioners, 2 Nurses, 1 Social Worker
- Clinical experience mirrors that of attendings
  - Same sociodemographic mix, your own patient panel, your own secretary, etc.
- Great clinical rotations
  - Genetics, physiatry, psychiatry, school-based rotation, adolescent medicine/eating disorders, etc.
- Robust NICU consult, NICU and Cardiac Neurodevelopmental Follow-Up Program
- Abundant research opportunities
  - Research Intern Program (they can help with your research!)
  - Over 300 abstracts presented at PAS, SDBP, AAP since 2015!
  - Our fellows and faculty have been published in *JAMA Pediatrics* and *Pediatrics* this year!
- Diverse patients from NYC and Long Island – Queens is the most diverse place in America!
- Access to all NYC has to offer... with the option of city or suburban living
- Competitive salary and great benefits
  - Retirement contribution match, free parking, etc.

And we have fun!
Take the next step in your journey with Indiana University!

The Indiana University Developmental-Behavioral Pediatrics Fellowship is located on the largest medical school campus in the United States, training graduates at Riley Hospital for Children in Indianapolis. This program provides an interdisciplinary training experience in the spirit of the developmental-behavioral pediatrics community, offering a breadth and depth of developmental experiences.

Child Development/Developmental-Behavioral Pediatrics fellows work as physician members of interdisciplinary service-line teams. While fellows remain under faculty supervision for all patient care, they gain increased autonomy in patient care throughout their fellowship training. Physician and psychology faculty are available at all times to assist the fellow.

For their core options, fellows will work with patients with a wide variety of diagnoses, including developmental delay evaluations, autism evaluations, newborn follow-up, behavioral disorders and learning disorders. Elective options include community/child advocacy experiences, LEND program didactics, and options in 15 areas of specialty at Riley.

Clinical Training Highlights

- **Weekly Continuity Clinic**
- **Core DBP Clinics:** 0-3, Preschool, School Age, ASD Evaluations, ADHD, Early ASD Dx, Medication Consultations, NICU Follow-up, Down Syndrome, Spina Bifida, International Adoption, Neurodevelopmental Cardiology, Behavioral Interventions, Cochlear Implant
- **Core External Outpatient Rotations:** Genetics, Adolescent/Foster Care, Neurology, Child Psychiatry
- **Electives:** Craniofacial, PM&R, Cerebral Palsy, Movement and Tic disorders, Sleep Medicine

Educational Experiences

- Weekly DBP Didactics and Board Review
- Monthly Collaborative Office Rounds and Journal Club
- MUSC Children’s Fellowship Core Curriculum program
- Attendance at MCHB and SDBP annual conference
- Additional Conference Sponsorship available
- Optional Master’s of Science in Clinical Research (MSCR) or Certificate in Clinical Research
- Tracks for Advocacy, Medical Education, Global Health
- STAT, RITA-T, ADOS certification

Research Opportunities

- Individualized research support and Biostatistics/Epidemiology Course
- Individual Faculty and research mentors for Scholarly Project
- Wide range of research opportunities

Recent Fellows’ Projects

- Primary Care implementation of RITA-T Autism screener
- Factors Associated with Language Disorder in Internationally Adopted Youth

Community Service

- Special Olympics
- Surfers’ Healing
- Buddy Walk for Down Syndrome
- Outreach Clinics

Nationwide Children’s Hospital Developmental Behavioral Pediatrics Fellowship

Program highlights

- Interdisciplinary department, clinics, and case conferences
- Specialty team clinics and programs: Down Syndrome, Williams Syndrome, Spina Bifida, Cerebral Palsy, 22q, NICU f/u, and more!
- >8000 appts in 2023 with patients from all over Ohio and out of state
- The Ohio State University Nisonger Center & LEND Program (https://nisonger.osu.edu/)

- Current fellow scholarly projects:
  - Correlates of parental stress in patients seen in a DBP Clinic
  - Participation in referrals following a failed M-CHAT
  - Relationship between telehealth availability and completed DBP visits
- Other scholarly opportunities: Masters degree, resident teaching, quality improvement, presentations at national meetings
- Fast-growing midwest metropolitan area with low cost of living

Program Highlights

• Clinical training
  • Child Development Teams; Neurodevelopment Teams; DBP Continuity Clinic; Toddler Autism Clinic; Therapeutic Preschool Consultation; Feeding Clinic; Psychiatry; Psychology; Neurology; Genetics; Down Syndrome/ Rett Syndrome/ Spina Bifida; Rural Outreach; Physical Medicine and Rehabilitation; Transition to Adulthood

• Education
  • Monthly DBP core didactic
  • Monthly Journal Club/ Case Conference
  • Weekly Neuroscience Conference, PGY-4
  • Weekly LEND Conference, PGY-4
  • Monthly Scholarship mentoring
  • Monthly Quality Improvement mentoring
  • Scholarship Oversight Committee
  • Weekly Grand Rounds

• Some Scholarly Themes: Healthcare Services research e.g. for individuals with Autism, Down syndrome, Rett syndrome, Trauma and Stressor Related Disorders; Transition to Adulthood; Telehealth Delivery of Cognitive Behavioral Therapy for Insomnia; Phone Consultation with PCPs to Improve Access to DBP care

The Environment

Our Program Director, first 3 alumna, in a tree
And here we are being A bit more grounded

Jennifer.Kenney@uhhospitals.org
Saint Louis University/SSMHealth Cardinal Glennon Children’s Hospital Developmental-Behavioral Pediatrics Fellowship Program

The gateway to the Midwest can be your entrance to a career in Developmental Pediatrics!

- **Clinic Highlights:**
  - Multidisciplinary center with >5,000 patients a year, supported by $3M in grant funding
  - Clinics for Down syndrome, Prader-Willi syndrome (PWS), Early Intervention, FAS, Cardiac Neurodevelopment, & Foster Care
  - Work directly in other divisions, including genetics, neurology, nursery, child protection, international health, & more

- **Research Opportunities:**
  - Current projects include developmental outcomes of NICU babies undergoing sensory modifications (NIH supported), clinical trial for carbetocin for hyperphagia in PWS, and novel telehealth social communication programming for young children (TIPSS)

- **Education:**
  - Training in standardized assessment tools and support to present at national conferences
  - Combined pediatric fellowship didactic programming, research colloquium, board review, case presentations, & journal club every month
  - Ample teaching opportunities to develop leadership skills

- **Advocacy:**
  - Ability to work with local community and advocacy organizations on specific clinical interests
  - Highly diverse patient population from a 200 mile radius

- **Tight knit faculty and staff where YOU will be an integral member

**Program Director:** Jennifer Heithaus, MD
Jennifer.heithaus@slucare.ssmhealth.com

The Knights of Columbus Developmental Center - in the heart of St. Louis
Mission Statement

To improve the wellbeing of children with developmental and behavioral disabilities, their families and communities, we train developmental and behavioral pediatricians in an inclusive environment with diverse clinical and academic experiences. Our program’s training is built upon the following foundational commitments:

- To value and focus on the importance of **diverse interdisciplinary collaboration** in caring for children with developmental and behavioral disabilities
- To foster a **learning environment** for our fellows that promotes scientific inquiry, cultural humility, and both personal and professional well-being
- To provide **flexible training and mentorship** that develops excellent independent subspecialty physicians and researchers who are life-long learners, educators, and advocates

Developmental-Behavioral Pediatrics Fellowship Program

Program Leaders
Lynne Huffman MD - PD
Heidi Feldman MD PhD - APD
Lauren Goddi BA - PC

Program Highlights
MCHB-funded 3-year program; 1-2 fellows/year
Interdisciplinary, cross-university faculty
Strong departmental support
Diverse patient population

Program Aims
• Fellows taught to provide clinical care that is compassionate, comprehensive, and effective for diagnosis and treatment of developmental, behavioral, and mental health conditions
• Through research training, fellows develop fundamental skills in research design, methods, data collection/analysis, and communication
• Teaching skills cultivated through didactics as well as direct experience precepting residents and leading case-based learning discussions
• Fellows guided in pursuit of advocacy opportunities at patient, health care system, community, and regional levels

Tufts Medicine Pediatrics-Boston Children’s Hospital

**MISSION**

The Tufts interprofessional training program nurtures and educates future leaders in pediatric neurodevelopmental care to be compassionate, knowledgeable, and skillful clinicians, advocates, and scholars.

- We value the uniqueness and diversity of each trainee’s life experience.
- We support and empower trainees to accomplish their professional development and career goals through individual mentorship, bidirectional teaching, and collaborative problem solving in an interprofessional setting.
- We mentor trainees to identify inequities and impact systems of care to improve access and promote inclusivity at an individual and policy level.

DBP Fellowship at Vanderbilt

Highlights
Specialized Clinics-NICU follow-up, Down Syndrome, Parenting and Behavior, Motor-Spasticity, Rapid Assessment, Behavior Analysis

Location-Nashville, TN
Weekly didactic sessions
LEND program
Core lectures with fellows from other subspecialties
Opportunity to complete a Master’s Degree during fellowship
Recent Research: underserved populations understanding of autism referrals; family satisfaction with telehealth; variations in TEIS services across states
We have lots of research support for scholarly activities of all kinds!!!!!
Pediatric Developmental Behavioral Fellowship

Located in beautiful Tucson, Arizona

-Faculty:
  • 3 Developmental Behavioral Pediatricians
  • 2 Doctorate level BCBA’s
  • 1 Doctorate level research faculty

-Clinical- diverse clinical experience including autism, ADHD, hearing impairment, brain injury, spina bifida, CP, autoimmune encephalopathy, foster care, ABA, challenging behavior, Indian Health, Rural populations, neurology, genetics, NICU follow up, psychopharmacology

-Opportunity to work in Multispecialty Clinics and Autism Center of Excellence

-Spanish distinction track available

-Education- didactics, journal club, board review, participate in LEND (Leadership Education in Neurodevelopmental and Related Disabilities), opportunity to obtain an MPH

-Research- mentors from multiple disciplines available to guide projects

Developmental-Behavioral Pediatrics Fellowship

Faculty and Fellows

Kevin Aranas, MD (fellow)
Associate PD: Maya Lopez, MD

Claire Foster, MD, MPH (fellow)
Jayne Bellando, PhD

Shruti Tewar, MBBS

Jamie, MD
& daughter, Mimi Frances

Maggie Houssay, MD (recent grad) & daughter Martina

Program Highlights

Clinical training
- Diagnostic assessments for autism spectrum and other developmental concerns, NICU follow up, DBP management of medically complex patients
- Meaningful experiences in related subspecialties (genetics, neurology, psychology, physical medicine/Rehabilitation)

Education
- 2 federally-funded training grants (Leadership Education in Neurodevelopmental Disabilities and DBP)
- Weekly didactic experiences (as learner, and as facilitator), coordinated with psychology fellows
- Departmental fellows’ Core Curriculum planned by the DBP PD, who is also Vice Chair of Fellowship Education

Scholarly themes
- Autism (site for CDC prevalence national study, site in DBPNet Research Network)
- Rural, underserved populations
- Medical Education
- We support fellows individualized research interests

Developmental-Behavioral Pediatrics Fellowship

Our Core UCLA Team:

- Moira A. Szilagyi, MD, PhD, FAAP, Chief of UCLA DBP, voted president of the AAP 2022, she has devoted her career to caring for underserved and vulnerable children.
- Irene Koolwijk, MD, MPH, UCLA DBP Fellowship Director Developmental-Behavioral Pediatrician
- Rolanda Gott, MD, UCLA DBP Clinical Director Developmental-Behavioral Pediatrician
- Sai Iyer, MD, UCLA HRIF Associate Medical Director Developmental-Behavioral Pediatrician
- Karin Best, PhD, Clinical Psychologist
- Samantha Kucaj, PsyD, Clinical Psychologist
- Jasper Estabillo, PhD, Clinical Psychologist

UCLA Health, Westwood Campus
UCLA Health, Santa Monica Hospital
Kaiser Permanente, Baldwin Hills-Crenshaw

Our Program:

Our UCLA DBP Fellowship Program is an ACGME accredited 3-year training program, which aims to prepare fellows for academic leadership careers in the field of Developmental-Behavioral Pediatrics. Our comprehensive curriculum provides the flexibility and guidance to pursue careers within the broad spectrum of the field of Developmental-Behavioral Pediatrics, and establishes a solid foundation in the current study and practice of this specialty.

- Interdisciplinary DBP Evaluations
- Wide variety of clinics e.g. Neuro-Genetics, Psychopharm, NICU Follow-up, Sleep clinic, FIT clinic, LEND clinic
- DBP Core Lectures, Psychiatry Core Lecture Course
- Journal Club, DBP Book Club
- LEND Program – Leadership Education in Neurodiversity
- Advanced courses (e.g. BOSA, ADOS®-2, Bayley-4)
- Research support (e.g. statistician, research assistant)
- Community outreach (e.g. Early Intervention Program, Early Headstart Program)

Developmental and Behavioral Pediatrics Fellowship Program

ACGME-Accredited Program Highlights
• Long-standing record of excellence in both behavioral and physical disabilities
• Interdisciplinary training and fellowship with other fellows in pediatrics
• Emphasis on wellness and reflective practice learning
• 1:1 supervision and guidance throughout the three years as the only DBP fellow

Clinical Training
• Multiple autism teams, ADHD clinics, learning disorders, sleep disorders, Down syndrome, Fragile X and behavioral problems
• Neurodevelopmental clinics
• One half-day continuity clinic throughout the entire fellowship
• Interdisciplinary collaboration and teamwork with psychology, speech pathology, educational diagnostician, occupational and physical therapy, audiology, nursing
• Opportunity to teach/mentor rotating pediatric residents and students
• Rotations in pediatric neurology, child and adolescent psychiatry, medical genetics

Education
• Leadership in Neurodevelopmental Disabilities (LEND) training with other advanced trainees and opportunities for advocacy activities
• Weekly didactic conference, consisting of core DBP board content, as well as journal clubs, case presentations, and guest lectures
• Pediatric Fellows Core Curriculum, which includes topics relevant to all pediatric fellows
• Opportunity to apply for concurrent Masters in Medical Education (MME) or Masters in Clinical Investigation (MCI) degree

Research/Scholarly Themes
• Flexibility to pursue up to 24 months of research
• SOC and mentor guidance for successful completion of a scholarly work product
• NIH-funded IDDRC (Intellectual and Developmental Disabilities Research Center), with focus on translational research

Program Highlights
- Midwest program; MCHB funded
- Clinical training
  - Mott and affiliated sites: Autism Collaborative; CMV; Early-child and development; Elimination; FASD; Rural outreach, School-age; Sleep; Transition. Fellow-led clinics
  - Ypsilanti HC – embedded in primary care
  - 7 rotations with allied services
- Education
  - Pillars: Advocacy; DEI; Life course-Transition; Quality improvement; Research; Rural-Telehealth; Trauma-informed care-Reflective practice;
  - Medical-legal partnership
  - Thrive while training - wellness
  - MI-LEND medium and long-term training
- Scholarly themes
  - Biological-developmental-contextual determinants of early feeding practices; cCMV and developmental outcomes; curiosity; digital media; iron deficiency; mobile device use and attachment; obesity; outcomes after prematurity; research-policy and digital media use; sleep disorders.
  - We work to support fellow scholarly interests

- One of the longest-running DBP programs nationally
- The Masonic Institute of the Developing Brain (MIDB), opened in late 2021, has been fostering new collaborative relationships
- Training sites include the University of Minnesota Masonic Children’s Hospital & Clinics (primary training site w/ ~4000 annual patient visits), Children’s Minnesota, and Gillette Children’s Specialty Healthcare.
- ~Four, ½ day, DBP continuity clinics/week where the fellow follows ~60 pts for duration of training
- Interprofessional training in advocacy & policy through participation in LEND and LEAH activities including early intervention & transitions to adulthood
- 40-60% scholarly activity across 36 months, depending on trainees’ individual needs and career development
- Clinical programs include Fragile X, Adoption, Birth to Three, Autism & NDD

DEVELOPMENTAL-BEHAVIORAL PEDIATRICS FELLOWSHIP

The MU Department of Child Health offers a unique three-year Developmental and Behavioral Pediatrics fellowship accredited by the Accreditation Council for Graduate Medical Education (ACGME). The program accepts one fellow each year.

CLINICAL OPPORTUNITIES
- More than 13,000 patient visits and 500 diagnostic evaluations performed every year.
- Specialized clinics including Down Syndrome, NICU follow up, and Cerebral Palsy.
- Learn to work with and lead multidisciplinary teams providing specialized assessment and care for children with a wide-range of neurodevelopmental disabilities.
- Applied Behavioral Analysis providers and clinics available on site.

WHAT SETS US APART
- Research grant available that is exclusively for our fellows at our program.
- Advanced training in administration of developmental assessments (including research reliability on the ADOS-2).
- Opportunity for special elective rotations, with travel stipend, at partnering locations across the country.

SAMPLE RESEARCH OPPORTUNITIES
- Dr. Kerri Nowell – Innovative evaluation of young children with neurodevelopmental disorders.
- Dr. David Beversdorf – Effects of pharmaceutical agents on cognition in autism and in stress.
- Dr. Stephen Steinke – Identification of very early signs of autism in infancy.

PROGRAM LEADERSHIP
Benjamin Blank, MD – Board certified developmental-behavioral pediatrician
